Sporting House Allocation

When students enrol, they are allocated a sporting house; either Cunningham or Leslie.

To determine which house a student is placed into, we do the following, in order.

1. If the student has an older sibling currently at Nobby SS, the newly enrolled student is automatically allocated to that same house.
2. If the student does not have an older sibling currently enrolled, we look at their specific age group and sex, and attempt to create competition by placing the student in a house that may either have no students (of that age and sex), or fewer students than the other house.
3. If after the above two steps it still isn't clear which house to place a student into, we attempt to even up the total numbers of students in each house.
